

(Full bio)

Deliberately shunning category and genre, Garrett's music features memorable melodies, psychedelic textures, and virtuosic improvisations. Not quite rock, not quite jazz, his songs and jams harken back to the fusion explorations of the seventies blended with the twang of Americana and a rich host of global influences.

Garrett has been a strong presence in the Milwaukee music scene since 2022, lending his versatile guitar playing and singing to original local acts such as Match Stick, Craig Baumann & the Story, Freejoy, and Day Tvvo in addition to his own original projects. He currently tours with Nashville-based singer-songwriter Phillip-Michael Scales and hosts a monthly open jazz jam at Bar Centro.

Garrett's new solo album, *Shapeshifter*, is now available on all streaming platforms. On this new record, Garrett synthesizes a multitude of musical influences into a striking collage of rock, avant-garde jazz, fusion, and folk music from America and beyond. Featuring both delicately woven compositions as well as freewheeling jams and improvisations, *Shapeshifter* was recorded at Bar Centro in front of a live audience, with additional overdubs and mixing at StoneHouse Studios. He is endorsed by House Guitars and Donmoyer Guitars.
