

Deliberately shunning category and genre, Garrett's music features memorable melodies, psychedelic textures, and virtuosic improvisations. Not quite rock, not quite jazz, his compositions harken back to the fusion explorations of Return to Forever with a forward looking approach drawing on alternative and psychedelic rock acts like Radiohead and Khruangbin. A passion for world music infuses sounds from the Amazon, Caribbean, and Middle East.

Garrett has been a strong presence in the Milwaukee music scene since 2022, adding his versatile playing to original acts such as Match Stick, Craig Baumann & the Story, Mitch Shiner's Latin Vibes, and Day Tvvo in addition to his own original projects.

Garrett graduated with Honors and a Division Achievement Award from Berklee College of music, which he attended with scholarship. He was a finalist in the Wilson Center Guitar Competition (Jazz Division, 2018), and won 1st Place in the NATS singing competition (Classical Division, 2015). In 2022 he was an Artist in Residence at the historic Jazz Estate. He is endorsed by Donmoyer Guitars and House Guitars.
